

Press Release **BRP'S ROTAX 912 IS ENGINE AWARDED DURING THE AERO GERMAN AVIATION FAIR**

Friedrichshafen, Germany, April 9, 2014 – BRP received today the German aviation magazine *aerokurier*'s innovation award in the category "powertrain of the future" for the Rotax 912 iS aircraft engine during AERO 2014 in Friedrichshafen, Germany, as selected by its readers.

"It is an honour for us to receive this award by *aerokurier* with BRP's Rotax 912 iS aircraft engine," said Thomas Uhr, vice-president of BRP's Austrian manufacturing facility, where Rotax aircraft engines are developed and produced. "We thank the readers of the magazine who voted for Rotax engines."

Aerokurier magazine researched the most innovative and sustainable products of the aircraft industry to be awarded in six different categories, including Powertrain of the Future. The readers had the opportunity to vote for their preference.

BRP will also present the new Rotax 912 iS Sport at the AERO in Friedrichshafen, booth A3-301. "We are confident that recognition like the Innovation Award provided by *aerokurier* will definitely have an influence on the development of general aviation and we are proud to be part of it," added Uhr.

About BRP

BRP (TSX: DOO) is a global leader in the design, development, manufacturing, distribution and marketing of powersports vehicles and propulsion systems. Its portfolio includes Ski-Doo and Lynx snowmobiles, Sea-Doo watercraft, Can-Am all-terrain and side-by-side vehicles, Can-Am roadsters, Evinrude outboard engines and Rotax engines for karts, motorcycles and recreational aircraft as well as inboard jet propulsion systems for boats.
